V	XPERIMENT BY THE PART HER STATE OF THE PART	N 18534C
	ELECTIONS (P)	7+
2017	Description (RO) 1 (RO)	2017
782°	You are the head of the election committee in your village. Each Political party is associated with a unique number and the votes are represented as an integer array A. where each element contains the party number voted for by the villagers. For a party to win, they must have a majority of votes. our task is to find and return an integer value denoting the winning party's number. Return -1 if there is no party with a majority.	TIB55
	Note: If only one vote is there he is the winner.	1
CRO	Input Format :	^
	input1: An integer value representing the number the number of voters	MCRO
	input2: An integer array A representing the votes of the voters.	25,
42	output Format:	.8
	Return an integer value denoting the winning party's number.Return -1 there is no party with a majority	11 to.
